

TOP 1 EVOLUTION MOTO

DESCRIPTION

TOP 1 EVOLUTION MOTO is a high performance oil designed to meet the latest motorcycle requirements. Specifically formulated to meet the demand of the small displacement, high rpm, fuel-efficient engines. These engines experience higher operating temperatures and require oil that offers maximum protection against both viscosity and thermal breakdown.

The oil is 100% synthetic oil blended with special additives that protects against high temperature oxidation, wear, and viscosity breakdown. It is fortified with detergent-dispersants and rust and corrosion inhibitors to keep engines exceptionally clean and free of sludge, varnish, and rust.

FEATURES AND ADVANTAGES

- Exceeds API Service Classification SL and is recommended for domestic and Japanese motorcycles engines - especially recommended for small, high rpm engines.
- Meets new JASO requirements of MA2 and MA.
- Meets and exceeds Motorcycle OEM requirements.
- Highly oxidation stable - protects engine from oil thickening, high temperature deposits.
- Shear stable viscosity index improver - protects against viscosity breakdown in severe service.
- Effective detergent-dispersants keeps engine parts clean.
- Anti-wear agents effectively protect highly loaded parts from wear.
